

PRODUCTION QUALITY ASSURANCE (Module D_{RAIL}) CERTIFICATE N° 241B/SAFERAIL/007

Issued by LAPI SPA

Application Of:

Accreditation Scheme SAFERAIL® for EN 45545-2:2015 Railway applications. Fire protection on railway vehicles. Requirements for fire behaviour of materials and components

Applicant/Manufacturer:

Compensati TORO S.P.A.

Via Piverone, 4 – 10010 Azeglio (TO) - Italy

Scope: Products as listed below:

Product name	Product description	Test report ref.
TORO/APIROS sp. 6 ÷ 25 mm	Pannello in legno compensato multistrato resinato, con un lato liscio ed uno zigrinato	RdP n°319-320.1IS0040/18 RdP n°433-434.1IS0040/18

This is to certify that LAPI S.p.A., Certification Body (Accreditation no. 241B PRD), did undertake the relevant quality assessment procedures for the equipments of the manufacturer identified above, which was found to be in compliance with the Fire Protection requirements of Scheme SAFERAIL® for EN 45545-2:2015 Railway applications and with the type described in test report/s listed above and reported in the Attachment to this Certificate, subject to any conditions as described in pertinent test report.

This Certificate authorizes the manufacturer, or his authorised representative, to affix the "Mark of Conformity" (Saferail®), as shown below, and exemplified in the Attachment.

D RAIL/XX

(XX being the last two digits of the year when the Certification is gained)

This Certificate loses its validity if the Manufacturer makes any changes or modification to the approved material components and/or production process, which have not been in advance notified to, and agreed with, the Certification Body named on this Certificate. In the event of changes not communicated, the Body reserves the right to suspend or withdraw the certificate, and will be considered an injured Party reserving actions for its own protection.

This Certificate consists of 1 (one) page and 1 (one) Attachment.

This Certificate, first issued on 02/08/2018, has been renewed in Prato on **29/10/2021** and remains valid, unless cancelled or revoked until its expiry date of **28/10/2024**.

Note: This Module D_{RAIL} must be read in conjunction with the Attachment.
